

# My Last Worming!

## THE STORY

Three worms named Curly, Slinky and Slim were sharing living quarters in a garden. They each had a favorite fruit they liked to infest which were apples, pears and peaches. Their biggest fears were fishermen, birds and moles. They were fashion-conscious and liked to wear a beret, a cowboy hat and a sombrero on their heads. Based on the clues, match the worms with their favorite fruits, biggest fears and favored headgear.

## THE CLUES

1. Slinky thought the worm in the sombrero looked sillier than the worm that feared fishermen.
2. The worm that feared moles wore a sombrero and infested pears exclusively.
3. Slinky was allergic to apples and never went near them.
4. Slim did not infest pears or wear a beret.
